

County News and Views

JULY 2002

From the Office of Fifth District Supervisor Jerry Eaves

Public and Specialized Transportation Directory

San Bernardino Associated Governments has published the 2002 Public and Specialized Transportation Directory. The challenges of community-level transportation, particularly for those with disabilities and those experiencing functional slowing associated with increasing age, are very real. Maintaining mobility is compounded in San Bernardino County by the dispersed suburban neighborhoods in which many of us live and the long distance between communities. Public transportation in this County has grown steadily in response to growth in both population and development.

The Directory has been published to disseminate information about available public transit and specialized transportation services. The listings represent an informal network of agencies and organizations within San Bernardino County who provide transportation services, who subsidize or contract for these services, or who work with a client-base with specialized transportation needs.

Copies of the SANBAG Transportation Directory can be ordered from A-M-M-A, 306 Lee Avenue, Claremont, CA, 91711-0711 or (909) 621-3101. The web site is menninger@earthlink.net.

Arrowhead Regional Medical Center Transportation Services

Transportation services are provided to clients authorized for transportation to medical appointments or hospital discharges. These services can be arranged for, and possibly subsidized, by contacting the Clinical Social Work Department at the Arrowhead Regional Medical Center. The contact is Susana Zamudio-Ruiz, Licensed Clinical Social Worker, at (909) 580-1080.
